3M™ Wrap Film Series 1380

# Colour Card Reference Guide

## 3M™ Wrap Film Series 1380

# The next Generation of Wrap Films.

The main characteristic of this evolutionary product is its outstanding conformability which allows application on the most severe recessed areas of a vehicle without the need for any cuts.

Lifting resistance of 3M Wrap Film Series 1380 is backed by 3M™ MCS™ Warranty, providing peace of mind to wrappers for all vehicle applications.

3M Wrap Film Series 1380 comes with the 3M™ Controltac™ film patented technology which allows easy positioning and repositioning on the surface of vehicles during application.

It also integrates 3M™ Comply™ adhesive non visible air release system that provides an even and smooth surface appearance after application while helping prevent air bubbles.

1380-M10 Matte White

1380-G10 Gloss White

1380-G45 Gloss Royal Yellow

1380-S284 Satin Autumn Orange Metallic

1380-G212 Gloss Black Metallic

3M™ Wrap Film Series 1380

## All what current Wrap Film Series 1080 does, plus:

### • Conformability without cutting

### • Warranted Lifting Resistance

July 2014

Full Car Wrapping with 3M™ Wrap Film Series 1380 without relief cuts

April 2015

Inspection of 3M™ Wrap Film Series 1380

3M™ Wrap Film Series 1380 stays in place. This is warranted by 3M!

3M™ MCS™ Warranty

### • Optimized Initial Tack

New adhesive system associated with 3M™ Controltac™ film technology and 3M™ Comply™ Adhesive Non-Visible Air Release Channels provides very low initial tack, allowing easy repositioning.

**This makes application easier and more efficient when an installer is working alone.**

### • Impressive film appearance

3M Non-Visible Air Release Channels result in a very uniform final appearance on the vehicle.

3M™ Wrap Film Series 1380

## The Best Application Results

3M Wrap Film Series 1380 offers the best application results when applied according to 3M instructions and recommendations for use.
