

# PREPASTED SYSTEXX GLASS-FIBRE DESIGN2WALL LATEX 280

matt 2520, 205 g/m<sup>2</sup>

A very robust glass-fibre wallpaper with a matt finish for latex and solvent inks. This product is easy to hang thanks to the water-activated paste on the reverse and the soft surface allows easy cutting – and the high scratch resistance means that extra surface protection after printing is not necessary.

## Advantages

- High quality, aqueous-based glue technology
- No stretch when wet due to glass-fibres, suitable for use in rooms with high humidity
- Regulates humidity preventing mould
- High water-, and scratch-resistance, no extra protection necessary
- Covers all cracks and uneven surfaces
- Fire classification B-s1, d0
- PVC-free

## Physical data

Name	Value	Norm
