

MetaGuard UV 700 Series

Premium Grade PVC Overlamine for UV Prints
(Matched to MD5)

MetaGuard UV 700 is a 70 micron polymeric calendered vinyl overlamine for use with UV Prints. The specially formulated solvent based adhesive gives a high bond to the low energy surface of UV prints and overcomes silvering.

Overlaminating with MetaGuard UV 700 provides increased resistance to abrasion and durability of the print, and offers UV inhibitors.

Performance you can trust
